POLYMER CLAY KIT

STEP-BY-STEP INSTRUCTIONS

If you need some help, pull up the video on [tangerineartkits.com](https://www.tangerineartkits.com)!

Materials:

Mini Glass Jar
Double-headed Needle Tool
5 Polymer Clay Blocks
Jewels

PREP CLAY

Soften your clay by kneading it with your hands. We could do this for hours, but it only takes a couple of minutes.

MAKE 'EM

Roll a portion of the green clay into a ball. Roll it into an oval shape until it resembles a pickle.

ADD DETAILS

Take small amounts of green clay, roll it into balls, and add them to your pickle shape to add texture. Use your double-headed needle tool to gently poke holes into the surface of the pickle-shape. Take small amounts of black clay, roll it into a ball, and add to your pickles for eyes. Repeat this process with the pink clay for cheeks. Add any other details you want, like pimples and dimples. Look at ours for inspiration, or choose your own pickle personality.

BAKE 'EM

That's right: now it's time to bake some pickles! Baking requires adult supervision. Preheat your oven to 275°F and bake for 15 minutes on a baking tray lined with parchment paper or aluminum foil. Remove from the oven and allow to cool before moving them into their new pickle jar home. Place the jar on your favorite table or shelf.
